

## A8: VERTICAL PROTOTYPE- LEARNIT (Q&A)

---

The Vertical Prototype of our project includes the implementation of eleven user stories (all with high priority) and aims to validate the architecture presented, while simultaneously gaining familiarity with the technologies being used.

The implementation is based on the LBAW skeleton and includes work on all layers of the architecture of the solution to implement: user interface, business logic and data access. It includes the implementation of visualization, insertion, editing and removal of information

On this page are described the implemented user stories and its corresponding implemented web resources.

### 1. IMPLEMENTED FEATURES
